create your next breakthrough mad genius is a unique book for entrepreneurs and for employees who want to think like entrepreneurs it will help you unleash the innate creative genius inside you every industry has its sacred cows and accepted practices these are often based upon foundational premises that are no longer valid if they ever were there s a reason facebook was birthed in a dorm room amazon com came from people not in the bookstore business and uber was created by people who weren t from the taxi industry innovation discovery and creating disruption require blowing up conventional thinking and unleashing your entrepreneurial brilliance mad genius is a fire hose of creative stimulation that will spark breakthrough ideas and show you how to nurture

them get ready to think different

self individualization has been interpreted as the process in which the all embracing self unfolds into an infinite variety of different individuals plants animals and men a comparison of the different ways in which the self manifests itself in the biological and psychological developmental processes or in a visionary image of the undivided self reveals the same basic structure of expression the self the one is represented by a circular domain and comprises a basic inner duality the two creating a paradox of conflicting opposites in the undivided self the two give rise to a trinity in which however a quaternity is hidden the latter expresses itself in this world as the four basic forces the four elements or the four main archetypes specifying the possibilities or development in space and time self individualization starts with the first appearance of a primary structure of an individual sub self this is the fifth basic force the fifth element further development is characterized by four generative principles 1st the principle of wholeness connection and integration being oriented to remaining whole or restoring wholeness 2nd the principle of complementarity and compensation a periodic shift between opposing influences 3rd the enstructuring principle causing the relative stability of the spatial appearance of the manifest structure and 4th the principle of gesture resulting in a gradual stepwise development of that structure into a full grown individual

halbe wahrheiten enthüllt die erstaunliche natur unserer erinnerungen und wie sie uns täuschen können in diesem faszinierenden buch erforscht der renommierte psychologe douwe draaisma die tricks und fallen des menschlichen gedächtnisses viele von uns glauben sich genau daran erinnern zu können wo sie waren und was sie taten als sie von schockierenden ereignissen wie 9 11 oder dem tod von john f kennedy oder prinzessin diana erfuhren doch wie draaisma zeigt entsprechen diese blitzlichterinnerungen selten der wahrheit sondern formen sich erst mit der zeit erinnerungen werden durch spätere erfahrungen ständig umgeschrieben und neu interpretiert so beginnt jemand der erfährt dass er ein kuckuckskind ist seine familiengeschichte in einem völlig neuen licht zu sehen lange vergessenes taucht plötzlich wieder auf und fügt sich zu einem veränderten bild zusammen draaisma argumentiert überzeugend dass unsere erinnerungen bestenfalls versionen der vergangenheit bieten und somit immer nur halbe wahrheiten sein können mit blick auf die erforschung einer vergessensspille wie sie etwa in der traumatherapie entwickelt wird wirft er auch die frage auf welche rolle erinnerungen für unsere identität spielen ein buch das unser verständnis von erinnerung und persönlichkei herausfordert und bereichert

magazine poetry fiction literary nonfiction art translation this second issue of hydrolith is a continuation of what the first volume started which was and is to

assemble a stimulating selection of exclusively recent work by groups and individuals of the international surrealist movement to facilitate intellectual exchange and collaboration enabling us to concentrate the echoes of our commonalities as well as the shadows of our differences in so doing this volume aspires to reduce all manner of distances that exist between us all works in this book are in english while many of them are translations from the dutch french greek portuguese romanian spanish and turkish languages from the preface

the vast literature on virginia woolf's life work and marriage falls into two groups a large majority is certain that she was mentally ill and a small minority is equally certain that she was not mentally ill but was misdiagnosed by psychiatrists in this daring exploration of woolf's life and work thomas szasz famed for his radical critique of psychiatric concepts coercions and excuses examines the evidence and rejects both views instead he looks at how virginia woolf as well as her husband leonard used the concept of madness and the profession of psychiatry to manage and manipulate their own and each other's lives do we explain achievement when we attribute it to the fictitious entity we call genius do we explain failure when we attribute it to the fictitious entity we call madness or do we deceive ourselves the same way that the person deceives himself when he attributes the easy ignition of hydrogen to its being flammable szasz interprets virginia woolf's life and work as expressions of her character and her character as the product of her free will he offers this view as a corrective against the prevailing ostensibly scientific view that attributes both her madness and her genius to biological genetic causes we tend to attribute exceptional achievement to genius and exceptional failure to madness both says szasz are fictitious entities

is there really a thin line between madness and genius this book provides a thorough review of the current state of knowledge on this age old idea and presents new empirical research to put an end to this debate but also to open up discussion about the implications of its findings

studies of opera film television and literature have demonstrated how constructions of madness may be referenced in order to stigmatise but also liberate protagonists in ways that reinforce or challenge contemporaneous notions of normality but to date very little research has been conducted on how madness is represented in popular music in an effort to redress this imbalance nicola spelman identifies links between the anti psychiatry movement and representations of madness in popular music of the 1960s and 1970s analysing the various ways in which ideas critical of institutional psychiatry are embodied both verbally and musically in specific songs by david bowie lou reed pink floyd alice cooper the beatles and elton john she concentrates on meanings that may be made at the point of reception as a consequence of ideas about madness that were circulating at the time these ideas are then linked to contemporary conventions of

musical expression in order to illustrate certain interpretative possibilities supporting evidence comes from popular musicological analysis incorporating discourse analysis and social semiotics and investigation of socio historical context the uniqueness of the period in question is demonstrated by means of a more generalised overview of songs drawn from a variety of styles and eras that engage with the topic of madness in diverse and often conflicting ways the conclusions drawn reveal the extent to which anti psychiatric ideas filtered through into popular culture offering insights into popular music s ability to question general suppositions about madness alongside its potential to bring issues of men s madness into the public arena as an often neglected topic for discussion

creativity influences each of our lives and is essential for the advancement of society the first edition of the successful encyclopedia of creativity helped establish the study of creativity as a field of research in itself the second edition published in 2011 was named a 2012 outstanding academic title by the american library association s choice publication featuring 232 chapters across 2 volumes the third edition of this important work provides updated information on the full range of creativity research there has been an enormous increase in research on the topic throughout the world in many different disciplines some areas covered in this edition include the arts and humanities business education mental and physical health neuroscience psychology the creative process and technology fundamental subjects are discussed such as the definition of creativity the development and expression of creativity across the lifespan the environmental conditions that encourage or discourage creativity the relationship of creativity to mental health intelligence and learning styles and the process of being creative creativity is discussed within specific disciplines including acting architecture art dance film government interior design magic mathematics medicine photography science sports tourism and writing a wide range of topics are covered here is a partial overview by topic business and organizational creativity advertising creative economies creativity consulting and coaching corporate creativity creativity exercises entrepreneurship group dynamics innovation leadership management of creative people patents teams and training the cognitive aspects of creativity altered and transitional states analogies attention breadth of attention cognitive style divergent thinking flow and optimal experience knowledge logic and reasoning metacognition mental models memory metaphors mind wandering mindfulness problem finding problem solving and remote associates the creative process attribution constraints discovery insight inspiration intentionality motivation risk taking and tolerance for ambiguity education children s creativity education intelligence knowledge metacognition play prodigies programs and courses talent and teaching creativity neuroscience research cellular matter grey matter cellular density eeg functional magnetic resonance imaging fmri music and the brain pupillometry systems the cerebellum and transcranial electrical stimulation psychology the big 5 personality characteristics bipolar mood disorders childhood trauma depression deviance dreams emotions expressive arts
